I am trying to find a [used BMW dealer in London](#) to MOT my 4 year old 3 series 4 door saloon. I have searched on line and there are quite a few BMW service centres coming up but I need one that is local to where I live in London or my office in West Malling. I want to drop it off in the morning, take a courtesy car and pick it up about 6pm. I have located Big motoring World in Kent who advertise MOT as well as used car sales. They look a credible and professional outfit so I will give them a call and see if they can book it in.
